**3. Please provide information on any substantial variance between 2021-22 and 2022-23:**

Program expenses vary from year to year based on operational needs and equipment replacement plans.

**4. Does this department plan to use any CEI funds for items not intended by the referenda? If so, please explain:**

No.

**5. If applicable, please provide plans for use of reserves listed in section #1f:**

Equipment repairs/replacements per equipment replacement plan  
Facility upkeep (furniture repairs/replacement, infrastructure repairs, etc.)  
Initial conversations taking place with division of Student Affairs on significant westward patio expansion and employee area renovation/expansion

**6. Please describe the need for a consumer price index (CPI) adjustment and include the departmental plan if CPI is not applied next academic year.**

The CPI adjustment allows the Coffee House to maintain the facility and equipment as costs increase year over year. Failure to receive a CPI adjustment could lead to a limiting of funds available for planned improvements and an inability for the fund to support the CoHo's efforts to innovate and expand its services to meet the campus needs.

**7. Is there information this department would like to provide regarding the scope of student use of the programs/services/facilities funded by CEI?**

*(Please limit your response to those items funded by CEI.)*

The ASUCD Coffee House is the most utilized food service operation on campus, directly impacting thousands of students—both customers and employees—each day. The CEI funds allow us to maintain our facility and equipment and affords us flexibility as we innovate to continue to meet the dining needs of the campus population.
