4. Does this department plan to use any CEI funds for items not intended by the referenda? If so, please explain:

No.

5. If applicable, please provide plans for use of reserves listed in section #2:

No reserves. The original intent was for Grant-in-Aid to be fully covered by CEI. However, for a number of reasons, including tuition increases far exceeding the rate of growth in CEI, CEI does not fully cover Grant-in-Aid, and we have had to find other sources of funding in order to appropriately fund Grant-in-Aid. As such, we fully expend all CEI on an annual basis.

6. Please describe the need for a consumer price index (CPI) adjustment and include the departmental plan if CPI is not applied next academic year.

As noted above, ICA has already had to supplement CEI funding in order to fund Grant-in-Aid, despite the intent of CEI to fully support Grant-in-Aid. Not receiving the CPI adjustment would further exacerbate this issue, especially in light of any tuition, fees and housing increases. ICA does not have other resources available in the event that CPI is not applied. ICA would have to consider significant reductions in both future Grant-in-Aid awards and other areas, which would seriously impact UC Davis' ability to be competitive at the Division 1 level.

7. Is there information this department would like to provide regarding the scope of student use of the programs/services/facilities funded by CEI?

(Please limit your response to those items funded by CEI.)
