7. Helped me graduate on time	6.96%	38
8. Helped me minimize my financial indebtedness	17.77%	97

Impact

How important is the UC Davis Student Parent Child Care Funding Program to:

“The Childcare Funding has allowed me to dedicate time to my studies and work in (probably) the best possible way, especially considering that the childcare service is so expensive and I have 2 children that need it. I am very grateful for this immense help.”

“This program has been extremely helpful.”

“This child care funding allowed me to maintain work life balance which is really important for a grad student.”

“Thank you for this assistance. It enabled me to study and continue to go to school without having to drop out or decrease school load.”

“This is an invaluable resource that supports student parents and enables them to complete their education, particularly women as they still statistically bear the majority of childcare duties. When we invest in parent education the positive societal impact is reaped over multiple generations.”

“This is very helpful for students with kids.”

“My family is incredibly grateful for the support provided through this program. It is an amazing resource and means a lot to me as a working parent + student. Thank you.”
