

Bike Curious: How to Fix a Flat Tire

Be empowered.
Save money.
Save time.

Who Are We?

Sanne

- Craft Center Coordinator
- Outreach
- HR
- Volunteers
- Passionate about wellness and active transportation

Forest

- UC Davis student
- Professional Bike Mechanic
- Long-Distance cyclist
- Lover of learning and teaching

Welcome to Davis, Bicycle Capital of the USA

**#1 mode of transportation
at UC Davis**

UCD has 22,000 bikes on any given day

But what about the **Bike Barn?**

"Providing a free bike repair class to help people be independent with their maintenance needs is a helpful and valuable resource to complement the Bike Barn services." - Oscar, General Manager of the Bike Barn

Oscar believes that there are indeed students who want to learn how to do basic bike maintenance themselves, and providing a free class at the Craft Center will not detract from the reliable and professional service provided by the ASUCD Bike Barn.

The Workshop Will...

- * Empower students to learn lifelong skills
- * Saves the student money and time on bike repairs.
- * Promote preservation and reuse of bicycles for a greener campus
- * Provide the students the knowledge and a tool kit upon which they can build their skillset.
- * Increase bike safety on campus

Budget

Items

Repair kit -----	\$30 x 54 = \$1,620
Bike tube -----	\$10 x 54 = \$540
Bike Stand -----	\$200 x 2 = \$400
