### Lea!

- UC Davis student!
- Design major
- Studio Manager at the craft center
- I count bikes at the Davis Amtrak
- Advanced Biker

UCD Craft Center

Peck  
8-17-16

## Who is the instructor?

### Forest Sabath

- UC Davis student
- Professional Bike Mechanic
- Long-Distance cyclist
- Lover of learning and teaching

(c) Pete Scully 2016

8-17-16

Welcome to Davis,  
Bicycle Capital of the  
USA

#1 mode of transportation  
at UC Davis

UCD has **22,000** bikes on any given  
day

## The Workshop Is...

- \* Empower students to learn lifelong skills
- \* Saves the student money and time on bike repairs.
- \* Promote preservation and reuse of bicycles for a greener campus
- \* Provide the students the knowledge and a tool kit upon which they can build their skillset.
- \* Increase bike safety on campus

## What does the **Bike Barn** think?

"Providing a free bike repair class to help people be independent with their maintenance needs is a helpful and valuable resource to complement the Bike Barn services." - **Oscar, General Manager of the Bike Barn**

**Oscar** believes that there are indeed students who want to learn how to do basic bike maintenance themselves, and providing a free class at the Craft Center will not detract from the reliable and professional service provided by the ASUCD Bike Barn.

## The Class So Far!

“Made something that seems complex, so **approachable**”

“Such an **amazing** an **informative** class!”

“Great workshop, wish I knew about it freshman year... would love to see **more** bike repair classes.”

- *Quotes from students*

# Budget

---

## Items

Repair kit -----	\$35 x 54 = \$1,890
