- 

Responses to Questions

- Bullet journals could be cut or changed to a less expensive option
 - Amasignh the Magician puts on a show that appeals to all ages
 - If funding is not received, we will not be able to offer the program, as the TRC's budget is limited
 - A pared down version of the program could be possible - maybe a shorter program over Zoom - but it would not offer the same opportunities for making connections and would likely have lower attendance, especially without children's activities
