Future Plans

- **Recruitment**

- Continue working with K-12 and Community Colleges in different regions of California
- Collaborate with other UC Student Initiated Programs
- Work with Retention staff on creating “hand-off” programming
- Discussing student-parent support programs

- **Retention**

- Expanding our support to Basic Needs Advisory Committee & AggieCompass
- Providing financial and dissertation writing support to graduate students

- **Community Empowerment**

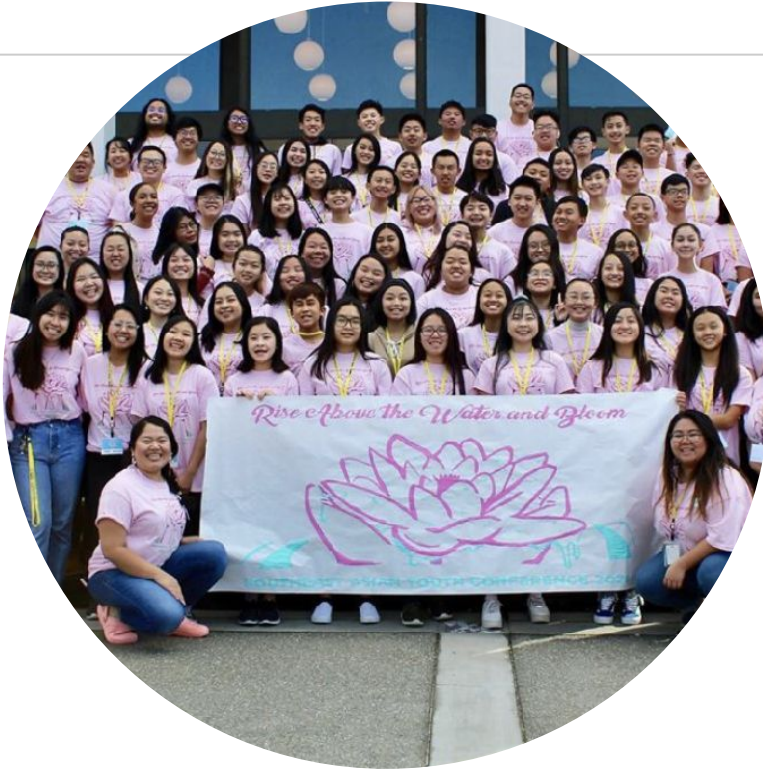

- Exploring inclusive fellowship options for undergraduate students
- Centering community care and safety in our physical space and in-person interactions

This event let me be connected with my own community. It brought me the feeling of home. I called my mom during the event and asked her for her recipes and that was such a healing experience for me.

The SRRC is amazing. You build such a great community everyone is understanding and supportive. You learn a lot and you contribute a lot.

The SRRC has influenced my activism as a STEM major. I am able to be an activist with the knowledge from my major and apply it to the community. I know that as I continue to learn and grow in my field, I will be able to serve my community better because of the SRRC.
