* TGIF gives out grants between \$200 and \$20,000; we no longer distinguish between mini and major grants, having learned after the first year of doing so that it did not work well.

3. Please provide information on any substantial variance between 2018-19 and 2019-20:

Awarded more grants and spend rate for FY19 came in ~\$70K less than expected due to hiring process for program manager.

4. Describe TGIF's role and function on campus.

(What Impact does it have on students? The UC Davis campus community?)

The Green Initiative Fund (TGIF) was enacted by a student referendum Winter Quarter 2016. The aim of TGIF is to provide funding to enable students to have a greater impact on sustainability within the UC Davis campus and the immediate region. The fund provides grants to projects that improve educational opportunities, promote environmental awareness, engage in sustainability research, advocate for climate and environmental justice, increase energy and water efficiency, reduce the amount of waste created on campus, and similar sustainability efforts. TGIF funds are available only to UC Davis affiliated students, faculty, and staff. Every proposal submitted for consideration must articulate the undergraduate student role in conceptualizing the project or program proposed for

funding, and must describe the undergraduate student role in the implementation of a funded project or program. A committee with an undergraduate student majority of voting members decides on awards, and proposals that benefit undergraduate students are prioritized.

5. If applicable, please provide plans for use of Reserves listed under item #2:

TGIF will continue to give out grant awards; fund program expenses such as for marketing and outreach, hire a program manager and student assistant; and pay committee stipends.
